📄 <https://www.shivendraagrawal.github.io>

Research Interests: HRI, Robotics, Localization/Mapping, Assistive Technology, Semantic Perception.

Summary: Ph.D. in Computer Science (CU Boulder) developing *context-aware human-centered AI* for real-world robotics. My research bridges *Robotics, HRI, and Embodied AI* to create systems that interpret *semantic, social, and geometric cues* for applications ranging from assistive navigation to autonomous spatial reasoning. Technical expertise spans *computer vision deployment, full-stack system architecture, and human-subject evaluation*, leveraging modern techniques from *probabilistic planning* to *Foundation Models (VLMs)* for deployable embodied AI. Proven track record of publishing in top-tier venues (RA-L, HRI, AAMAS, IROS, ICRA). Award-winning educator and mentor, recognized for instructional excellence with multiple Outstanding TA and Instructor awards.

Education

2019–2026 **University of Colorado, Boulder**, *Ph.D. Candidate, Computer Science*.

2017–2019 **University of Colorado, Boulder**, *MS, Computer Science*.

2009–2014 **Indian Institute of Technology, Kharagpur**, *Integrated BS + MS, Mathematics & Computing*.

Publications

In Submission/Development

CoRL 2026 **S. Agrawal**, B. Hayes. "VLM-GLoc: VLM-enhanced Mapping & Localization in geometrically and semantically aliased spaces." ([PAPER](#))

In Development **S. Agrawal**, B. Hayes. "GIST: Multimodal Knowledge Extraction and Spatial Grounding via Intelligent Semantic Topology." ([WEBSITE](#))

Refereed Conference/Journal Papers

RA-L 2025 **S. Agrawal**, A. Naik, J. Brawer, B. Hayes. "ShelfAware: Real-Time Visual-Inertial Semantic Localization in Quasi-Static Environments with Low-Cost Sensors." (Journal). ([WEBSITE](#))

AAMAS 2023 **S. Agrawal**, S. Nayak, A. Naik, B. Hayes. "ShelfHelp: Empowering Humans to Perform Vision-Independent Manipulation Tasks with a Socially Assistive Robotic Cane." ([WEBSITE](#))

IROS 2022 **S. Agrawal**, M. E. West, B. Hayes. "A novel perceptive robotic cane with haptic navigation for enabling vision-independent participation in the social dynamics of seat choice." ([WEBSITE](#))

HRI 2019 **Best Paper Runner-up:** A. Tabrez, **S. Agrawal**, B. Hayes. "Explanation-based reward coaching to improve human performance via reinforcement learning." ([WEBSITE](#))

Workshop

ICRA 2026 **S. Agrawal**, A. Roncone, B. Hayes. "Distributional Semantics for Robust Global Localization in Cluttered, Geometrically Aliased Environments" ([PAPER](#))

AAMAS 2023 **S. Agrawal**. "Assistive robotics for empowering humans with visual impairments to independently perform day-to-day tasks" ([PAPER](#))

IROS 2022 **S. Agrawal**, B. Hayes. "ShelfHelp: Empowering Humans to Perform Vision-Independent Manipulation Tasks with a Socially Assistive Robotic Cane." ([WEBSITE](#))

Research Experience

2019–Present **Graduate Research Assistant**, *Collaborative AI and Robotics (CAIRO) Lab*, University of Colorado Boulder.

- **Active Semantic Localization – Current Work:** Large indoor spaces such as hospitals and colleges have sparse features making global localization challenging. This work focuses on acquiring relevant information for robust global localization.
- **Generative AI & Spatial Grounding (GIST):** A multimodal pipeline that transforms a point cloud into a lightweight semantic topology, enhancing spatial grounding for VLMs and enabling intent-aware search, global localization, and visually grounded language-based navigation.
- **Semantic Localization (ShelfAware):** Designed a **Semantic Particle Filter** that utilizes quasi-static landmarks as mathematical distributions for robust localization. Integrated RGB-D and Visual-Inertial Odometry (VIO) to achieve state-of-the-art accuracy on low-cost hardware.
- **Learning Grasp Guidance Policies from Human Demonstrations (ShelfHelp):** Created a robotic cane system that provides online grasping guidance. Implemented a Markov Decision Process planner learned from human demonstrations to optimize verbal instruction timing.
- **Social Goal-Finding:** Developed a goal-finding framework modeling privacy and intimacy norms and integrated it with path-planning and haptics-based guidance. Conducted human-subject studies validating increased confidence in reaching the goal.
- **Explainable Robotic Coaching:** Developed a second-order “Theory of Mind” framework allowing robots to infer human mental models and provide targeted, explainable coaching by observing suboptimal actions (Best Paper Runner-up, HRI '19).

Industry Experience

- Sep 2016 – **Associate Data Scientist**, NOODLE.AI.
- May 2017
- **Automated Analytics:** Engineered automated pipelines for **Exploratory Data Analysis (EDA)** to evaluate large-scale datasets, reducing manual analysis time by 40%.
 - **Predictive Modeling:** Designed and deployed predictive models for demand forecasting and churn analysis for major enterprise clients.
- Mar 2016 – **Co-Founder**, PROGYRUS.
- Aug 2016
- **System Architecture:** Architected a distributed task management system for large-scale vernacular translation, managing work allocation for 50+ concurrent translators.
 - **Full-Stack Development:** Designed RESTful APIs (Django) and the frontend interface (AngularJS) for the order management platform.
- 2014 – 2016 **Senior Engineer (Analytics)**, ROBERT BOSCH GMBH.
- **Optimization Algorithms:** Developed a clique-based algorithm to optimize vehicle prototype configurations, satisfying complex boolean constraints to reduce physical testing costs.
 - **NLP:** Engineered a Python-based GUI (Tkinter) for automated log analysis and ticket clustering, utilizing NLP techniques to identify recurring vehicle faults.

Teaching Experience

- Instructor CSCI 3104 Algorithms - *Best Part Time Graduate Instructor* (2019-2020).
- TA CSCI 3104 Algorithms - *Outstanding TA award* (2018, 2019).
- CSCI 3002 Fundamentals of Human Computer Interaction.
- CSCI 3302 Intro to Robotics - *Outstanding TA award* (2022).
- CSCI 4302/5302 Advanced Robotics (2023).
- CSCI 5322 Algorithmic Human-Robot Interaction (2025).
- CSCI 3202 Intro to AI (2026).

Other Projects

- 2024 **Autonomous Anomaly Explanation (NEC Corporation)**, *University of Colorado Boulder*.
Developed a proof-of-concept system that uses a Vision Language Model (VLM) and a mobile robot to autonomously explain spatial anomalies. ([VIDEO DEMO](#))

- 2019 **Robot Guide Dog for Visually Impaired**, *University of Colorado Boulder*.
Emulated a guide dog behavior in indoor scenarios to navigate users to the nearest exit. Provided navigation assistance and scene explanation. ([VIDEO DEMO](#))
- 2019 **Visual Memory with Sparse Demonstrations**, *University of Colorado Boulder*.
Investigated LSTM's ability to learn path policies using visual cues, enabling a robot to re-trace paths without a 3D map. ([PROJECT LINK](#))
- 2018 **ARKit App for Learning Disabilities**, *University of Colorado Boulder*.
Developed an iOS app with a Python ML backend that parses text from images and re-presents it intuitively to foster learning. ([PROJECT LINK](#))

Technical Skills

AI & LLM / VLM	Foundation Models (Qwen, Gemma, PaliGemma, LLaMA), Local Deployment, LM Studio, PyTorch, LangGraph, LangChain, Codex, Claude Code
Robotics	ROS, SLAM, Particle Filters, WeBots, RViz, Sensor Fusion, OptiTrack, LiDAR
Languages	Python (NumPy, SciPy), C++, JavaScript, R
Methodologies	Human-Subject Experiment Design, Statistical Analysis

Service & Mentorship

Peer Review	Reviewer for CoRL, ACM/IEEE HRI, IEEE ICRA, IEEE IROS, ACM THRI
Leadership	Social Media Chair (HRI 2024), Volunteer (AAMAS 2023)
Mentorship	Mentored 5 M.S. and 3 Undergraduate researchers; mentees placed at Tesla , Meta , and AWS .

Talks and Guest Lectures

- Feb 2026 **Guest Lecture: Hidden Markov Models**, *Intro to AI*, Boulder, CO, ([SLIDES](#)).
Guest lecture for the Intro to Artificial Intelligence (CSCI 3202) class.
- Apr 2024 **Robotics Seminar Talk: Context-Aware Assistive Guidance**, *University of Colorado Boulder*, Boulder, CO, ([SLIDES](#)).
Presented thesis work on context-aware assistive guidance to the broader CU Boulder audience.
- Apr 2024 **Guest Lecture: Practical Computer Vision**, *Franklin & Marshall College*, Lancaster, PA, ([SLIDES](#)).
Guest lecture for Intro to Machine Learning (CPS 360).
- Sep 2023 **Leading with Impact alumni event**, Denver, CO, ([EVENT NEWS](#)).
Panel discussion on the current state and future of AI.

Awards and Scholarships

- 2026 Dissertation Completion Fellowship.
- 2026 Selected as the Next Gen Cohort for CERAWEEK.
- 2026 Winner at Annual Research Expo, CU Boulder.
- 2024 Bell Family Endowed CS Scholarship.
- 2024 Publication Recognition Award, CU Boulder.
- 2022, 2023 Conference Support Fellowship, CU Boulder.
- 2022, 2023 Winner at Annual Research Expo, CU Boulder.
- 2021-2022 David T. Spalding Graduate Teaching Fund Fellowship.
- 2019-2020 Best Part-Time Instructor Award.
- 2017-2019 Outstanding TA Awards.
